

ROYAL ENFIELD

ROYALENFIELD.COM

The Classic 350.  
Gleaming new colours.  
Updated features.  
Unwavering style.

# TRENDING SINCE 1950

The Classic 350 traces its bloodline to the 1950 Royal Enfield G2—and this perfectly-proportioned silhouette has been in fashion ever since. In its gleaming new avatar, the Classic continues to represent an era in which motorcycles had impeccable road manners and unforgettable style. From burnished bronze to desert blue, this thoroughbred motorcycle is now available in seven striking new colourways inspired by its past, present and future.

# HOW DO YOU IMPROVE AN ICON? YOU DON'T.

The Classic 350's signature stance seamlessly carries over into 2024, with an upright riding posture that is both commanding and comfortable. Its amply-cushioned seat, perfectly-positioned footpegs and well-spaced handlebars allow you to ride uninterrupted for hours in the city, on the highway or among the mountains with complete ease.

# CRAFTED, NOT BUILT.

Unmatched design. Unmistakable style. Unrivalled craftsmanship. With its rare blend of character and artistry, the Classic 350 stands out in an era of mass production. Each machine is a meld of modern engineering and traditional handcrafting, giving the motorcycle its indomitable DNA. The deep, throaty exhaust note seals the deal, heralding the arrival of an enduring Classic.

# FEATURES

Along with the iconic silhouette and meticulous craftsmanship of its predecessors, the Classic 350 offers a range of upgrades designed to make your riding experience smoother than ever.

# LED HEADLAMPS AND PILOT LIGHT

The hallmark headlamp of the Classic 350 returns with improved illumination and increased efficiency, offering enhanced visibility while staying unapologetically stylish.

# USB CHARGING PORT

All the iconic styling cues of a 1950s motorcycle without the 1950s drawbacks. Stay connected to the 21st century with a USB charging port for all your devices.

# GEAR INDICATOR

The Classic 350's updated instrument cluster includes a gear position indicator that improves gear management, prevents engine strain and ensures the smoothest of gear shifts.

# NEW COLOURS. TRUE COLOURS.
