**PURE POWER.
PURE PRESENCE.
PURE STYLE.**

PURE MOTORCYCLING.
ALL NEW CLASSIC 350.

TIMELESS CLASSIC

The Classic 350, reborn on the new J-platform, continues to embody the traditions and craftsmanship of its predecessors. Inspired by the post-war G2 model, it features the hallmark teardrop tank, casquette headlamp, singular colourways and distinctive thump, all of which come together to recreate the timeless icon that is the Royal Enfield Classic.

SMOOTHER

Ride down the open road or steer around the city corners with equal ease thanks to the Classic 350's wider handlebars, sturdy tyres and effortless manoeuvrability. Its balancer shaft minimises vibrations and light clutch guarantees seamless gear shifts, while the impeccably-mapped fuel injection delivers a smooth and refined riding experience.

SMARTER

The Classic 350 has been fitted with numerous upgrades to ensure a superior riding experience. It comes with a new instrument cluster, featuring an analogue speedometer and LCD screen for more accurate readings, a dual channel ABS* for increased efficiency, a USB port for charging on-the-go, and a Tripper™ navigation system** to keep you on track at every turn.

*Not available on the Redditch an Halcyon single channel editions.

**Available only on the MiY editions.

STRONGER

At the core of the Classic 350 is the J-platform engine, which sits within a sturdily-built twin downtube chassis that rides strong and steady, no matter where you're headed. The motorcycle's improved diameter brakes, upright riding position and wider seat ensure you stay comfortable, even after hours of riding.

YOUR CLASSIC. YOUR WAY.

Personalise your Classic 350 to suit your needs with the Make it Yours [MiY] feature on the Royal Enfield website and app.

Its editable and shareable 3D configurator allows you to enhance comfort, protection and style to match your motorcycling needs. It also allows you to add a nameplate and select your preferred EMI option before booking the motorcycle, all from the comfort of your home.
