This is completely free of charge, so do visit and experience a small taste of adventure. Royal Enfield, will also be exhibiting it's full range of motorcycles at the show in Hall 3A Stand 3D15 .

Trailquest, established sixteen years ago and with previous expeditions ranging from the Arctic Circle to the Sahara, will be using their wealth of experience to offer training and support in the form of a selection of off-road riding courses aimed at differing levels of riding ability and even expedition consultancy to those looking to embark on a motorbike adventure.

Trailquest will offer Royal Enfield customers the chance to hone off-roading skills as well as ride outs on one of Royal Enfield's Himalayans from their main operating base in Ledbury. The Himalayan, released in the UK last year, is built for adventure and is the perfect accompaniment to any Trailquest expedition. Inspired by sixty years of Himalayan riding experiences and powered by a new LS 410 engine, the Royal Enfield Himalayan provides an authentic, non-extreme and more accessible form of adventure touring. In fact, its off-road capabilities make it a bike capable of riding in city conditions, as well as braving uneven mountain trails.
